Three flowing wells have been struck at a depth of less than forty feet, in Angola, during the past week. The water rises seven feet above the level of the ground.

The funeral of Mrs. Jennie Starr, daughter of Mr. and Mrs. O. E. Bradway, occurred this afternoon and was very largely attended. Over 100 carriages were in the cortege and a number of Mr. Bradway's fellow workmen marched in the line.

### He Neglected His Opportunities.

Ethel—Don't you like Mr. Fitz-Jones?

Mabel—No, I don't. I dispise him.

Ethel—Why?

Mabel—Well, he was calling on me last night, and I undertook to show him how well I could whistle.

Ethel—Well, what of that?

Mabel—A great deal of that. I just puckered my lips up as sweet and pretty as I could, and then——

Ethel—Well, what then?

Mabel—He just let me go on and whistle.

Ethel—How mean!—*Tid Bits.*

## PITTSBURG FLAMES.

### A Fire in That City Causes a Loss of Over $70,000 and Impairs Business Materially.

PITTSBURG, Pa., June 10.—The fire in the mail office of the Western union, starting in crossed wires behind the switch board, burned out three upper stories of the building on Fifth avenue and Wood street, this morning, destroyed valuable machinery of the telegraph company and prostrated every wire. A temporary office has been taken at the Mutual Union office.

The Telephone company will not be in a condition to do business for at least ten days. The pool rooms and bucket shops were compelled to close up and comparatively little business was transacted to-day at the various exchanges. The direct loss of the Western Union company by the destruction of wires and machinery is not less than $35,000. To this must be added heavy consequential damages on account of the delay of general business. The direct loss of the telephone company, placed by good judges, is from $15,000 to $20,000. The consequential damages to this company is also thought to be heavy. The loss of the First National bank by damage to the building is about $15,000. The whole direct loss closely approximates to $70,000, and the direct loss may greatly exceed that sum.

### FINDLAY'S FUN.

#### The Day is a Military One and the First Prize of $1,000 Will go to the Toledo Cadets—Chief Justice Waite Talks.

FINDLAY, Ohio, June 10.—This is a military day at the great natural gas celebration and the streets were filled with armed men. At 9:30 the now famous Toledo cadets reached here and were met at the depot by all the military companies and bands now in the city. The procession was formed and escourted the cadets to the chamber of commerce where a formal reception was tendered them. Immediately afterward the military companies were formed in procession and marched to Camp Garfield, where a drill for prizes aggregating $2,000 took place. The contestants were the Toledo Cadets, the Geneva Rifles, Ohio University Cadets, Wooster City Guards. The judges were Captain Hobart, of the Third United States Infantry, Columbus barracks; Captain Thompson, third United States infantry and Lieutenant Ogle, 178th United States iufantry. It is generally conceded that the first prize of $1,000 will go to the Toledo Cadets. Chief Justice Waite, who spent last night in the city, said this morning that "it had been thirty years since he had been in Findlay, and that the change was the most amazing thing in his experience." He characterised Finlay's natural gas well as the century's wonder. The program for to-night includes a grand march of the military and other bodies through the streets, natural gas illumination, fire works, and speeches at the Wigwam and a band contest for prizes aggregating $2,500. The weather is delightful and there is no abating in the crowds or eathusiasm.

#### The Lecture of Judge McBride at the Fort Wayne College.

The lectured of Judge R. Wes. McBride, of Albion, last night, before the students of the Fort Wayne college, attracted to the college hall a large attendance of the students of the institution and a number of people from the city. The theme chosen by the judge for his lecture was "What a Young Man Can do for Himself," and his discourse throughout was replete with fine thought and good advice to the young men of his audience, who would soon be osiled upon to enter the avenue of busy life and do battle for themselves.

The judge is an interesting talker and his lecture last night was an able production of a brilliant and cultivated mind, drilled by meeting the obstcales and realties of a stern and busy life. His words fell with force on the minds of his hearers and they cannot help but be productive of great good. The lecture was listened to attentively by the students, and they were not only highly pleased but greatly profited by the evenings literary treat that the worthy and honorable gentlemen favored them with. They will not forget his earnest words and they would be glad to hear him again,

## HENRY GEORGE,

### Gives His Opinion of the Union Square Incident of Saturday Night And Talks About Wm. O'Brien.

NEW YORK, June 10.—The entire first page of Henry George's paper, the *Standard*, is taken up with George's opinion of the Union Square incident of Saturday night last. It is headed "William O'Brien," and often asserts that men who side with John McMackin did right in not yielding to the demands of O'Brien. He says: "No traps whatever were set for O'Brien, and no attempt was made to get him to take sides in the American politics." He came to America to denounce an Irish landlord for his conduct as a landlord. He was received with open arms by American landlords and the defenders of American landlords, who dined him and wined him and gave him public ovations with the transparent purpose of making themselves solid with the Irish vote. He has been flattered and lionized by a press that has nothing but misrepresentation and abuse for those who impeach in America the very same system which these papers so gladly condemn in Ireland, and has received the public approval of the same archbishop who is exerting all his power to persecute unto ecclesiastical death the American priest, who incurred the unrelenting enmity of the Italian propagate by the brave words he said in favor of "Irish revolution" in Ireland's darkest hour.

## DASTARDLY DEED!

### The Murder of a Wealthy Georgia Planter by a Disappointed Lover.

BARNESVILLE, Ga., June 10.—The full details of the murder of Col. John C. Hancock, a leading citizen of Crawford county, show it to have been a premeditated affair. Colonel Hancock was a large planter, having for a neighbor the Rev. John A. Burnett. Mr. Burnett objected to Hancock's having impounded some of his stock, and was quarreling with him when Jerome Burnett, his seventeen year-old son, stepped up. Leaving the two men to their disputation Jerome went half a mile to a house, procured a shot gun and returned. He sat on a stump about thirty rods from the men, apparently oblivious to what was going on. As soon as Col. Hancock turned full toward him Jerome raised his gun and quickly fired, the load entering Col. Hancock's heart. Mr. Barnett caught the body of the falling man. A year before, when young Barnett was forbidden Hancock's house, where resides a young woman with whom he was enamored. He vowed vangence and seized upon the first occasion to wreak it. Rev. Mr. Burnett had suffered the loss of his father and wife by death in the two precedeing days.

### COLLECTOR HUNTER.

#### He Must Move to Indianapolis or Resign His Place.

The following special from Washington to the Cincinnati *Enquirer* will interest the internal revenue officers in this city:

"Collector Hunter, of the Lawrenceburg, Indiana, internal revenue district, has written a voluminous letter to the commissioner of internal revenue, filled with reasons why the principal office of the consolidated Lawrenceburg-Kokomo district should not be removed from Lawrenceburg to Indianapolis, in accordance with the executive order consolidating the two districts. The principal reason was because the greater portion of the revenue collected in the district is at Lawrenceburg and Aurora. This reason, however, does not seem to impress the officials here as a strong one, because, as they say, a deputy will be retained at Lawrenceburg and Aurora, and the tax-payer will not be put to any inconvenience in getting a supply of stamps. The officials seem to think that the proper place for the principal office of the collector is at Indianapolis, where there is a government building, and which is nearer the center of the district. It is probable that Collector Hunter will have to move up to Indianapolis or resign. The officials suspect that the strongest reason he has for objecting to the change is one that he omitted to give in his letter, viz., because he resides at Lawrenceburg and doesn't want to be put to the inconvenience of going to Indianapolis to attend to the duties of his position as collector."

FRIDAY, JUNE 10, 1887.

COL. I. B. MCDONALD says "Whitley county is solid for Cleveland." That eases the suspense.

HERMAN, the magician, died Wednesday at Carlsbad, aged sixty-six years. He appeared in this city a few years ago.

IT IS stated on high authority at Washington that there is no probability of an extra session of congress being called.

THE surplus revenue is piling up in the treasury vaults, because of the iniquitous tariff legacy bequeathed us by the republicans.

INDIANAPOLIS has a base ball club and is "kicking" itself very hard. The ball tossers have only won eight games out of thirty-eight; but then that is an Indianapolis average at everything.

SENATOR EDMUNDS, of Vermont, is devastating the trout brooks in Northern Michigan along the line of the Grand Rapids and Indiana. He travels in a special car attached to the regular train.

MR. PARNELL has so far recovered from his illness as to be able to take his place at the head of the nationalist party in commons. He has already mapped out a new plan of campaign for the Crimes bill battle.

IT is established beyond contradiction that the government is safe in the hands of the democratic party. This is a little severe on the republican political prophets, but they must bear their disappointments smilingly.

MR. J. J. LASH, ex-editor of the Albion *Democrat*, has purchased a fruit farm in Virginia, twenty-five miles from Washington, and is following pursuits more peaceful than a twelfth district congressional campaign.

THE Norwegian Lutheran synod of North America, in session at Stoughton, Wis., has tackled the predestination question, with the usual result. The synod is now divided, and the prospects for healing the breach are not favorable.

CHAUNCEY M. DEPEW declares that he is not a presidential quantity, but that he can tell the issues of the next two presidential campaigns. He says the canvass of 1888 will be made on the tariff and that of 1892 on prohibition.

EVEN at staid old St. Louis they are enforcing the Sunday law. Fort Wayne is not in immediate danger of any such innovation as St. Louis and other cities are wrestling with, but if ever a moral spell comes on us, this inscription on a St. Louis show window will do:

Remember the Sabbath Day
And Lay in a Supply of
Sin Annihilator.
Four Religious Ecstacies Bottled
For Twenty-five Cents.

THE Orphans' fair, which is to open at Library hall to-morrow evening, deserves the support and patronage of every citizen regardless of creed or nationality. Its purpose is to assist in maintaining in this city a home for orphan children for all time to come. It is not a local institution, but one that opens its doors to all the little children of the Fort Wayne diocese, and the benfits to accrue from such a house are great and everlasting.

IT IS fair to presume that the city council, at its meeting next Tuesday evening, will grant to the Messrs. Centlivre the right and privilege of extending their Spy Run avenue street car line onto Superior street. The property owners have signified their willingness and pleasure at the improvement, so that the council has no reason to delay action unless it desires to obstruct and prevent public improvements.

THE tariff tax being such an excellent thing, according to its advocates, France has recently increased its import tax on American wheat from fifteen to twenty-six cents a bushel. The exclusion of our pork from Germany and a twenty-six cent embargo on wheat enables our farmers to realize, if they will give the matter a few practical thoughts, just what protection means and how high taxation enriches the toiler and gives him a market for his produce abroad.

WOODSON S. MARSHALL, once a lawyer of much prominence at Warsaw, and Commodore Clemons, a lawyer of Pierceton, have been disbarred by Judge Woods, for having been parties to the forgery of notes on Kosciusko farmers, as THE SENTINEL explained a day or two ago and only recalled now to show that iniquity is rewarded. Marshall is sojourning at the Hot Springs, completely broken down, and Clemens is serving a term in the penitentiary at Michigan City. The former once upon a time had hopes of representing the Warsaw district in congress, while the latter actually sought a seat on the supreme bench in 1884.

MR. JOHN TYLER, son of President Tyler, has for the ninth time been elected Grand Worthy Patriarch of the Sons of Temperance of the State of Virginia.

ESQUIMAU JOE, who acted as guide and interpreter to so many Arctic expeditions, is supposed to have been drowned near Marble Island. Joe, his father-in-law, and his two brothers-in-law left Cape Jalebert late last autumn in a whale boat with deer meat to trade with some whalers anchored off Marble Island. No tidings have ever been received of the boat or her occupants, and hence it is concluded that all were lost in one of the Arctic hurricanes that sweep across the northern seas.

"COULD a man make a shirt for 6 cents?" asks Charles Dudley Warner. "No. What limit is there to a woman's ambition or performance! She drives a stage, plays a violin, sews, sings, dances, acts, paints (both in oil and water colors), teaches, is a clerk, a type-writer, a type-setter, an editor, a marvelous producer of short stories (said by critics to be the most difficult art in the world), a telegrapher, and as a yeller through the telephone probably will never have an equal. Go where you will, there is woman, lovely or plain, ready to cure, to chide, to guide, to aid, to instruct, to amuse, to rule; to lead, and point the way for halting man. It is not so much now for the sake of women as for the sake of men that women need the ballot. Men have made a bad mess of governing the world; they have filled it with drinking-saloons and standing armies."

EVERY steamer from Europe that lands in this country brings a load of foreigners who have come to try their fortunes in the new world. This ceaseless change of locality is one of the characteristics of mankind. The Arabs are not the only nomadic people. Irishmen, Englishmen, Germans, Scandinavians, and to less extent men of other European nationalities, grown tired of the surroundings in which they have been reared, leave the old homes and seek new ones across the Atlantic. In this country, the Yankee keeps moving West, and the Western man goes further West, or starts back again eastward. Change, change, change, is the universal law of social life. There is always something pathetic in the tearing up of old associations and the severing of old ties, as the emigrant or the traveler sets out to find his fortune amid new scenes. A few days ago, says the Des Moines *Register*, a great Cunard steamer landed in Boston with 1,216 immigrants whom it had brought from Europe to find homes in the United States. Two-thirds of the number were from Great Britain, and the most of these from Ireland. A reporter from the Boston *Globe* interviewed many of them, and their statements of their reason for coming were often sad and always interesting, without exception. They were all hoping to do better here than they could at home, and in many instances they were lured on by the bright hopes which friends already here held up before them. Said Bernard Kelley, a bright young Irishman: "I left home rather than starve, and because this is the greatest of all countries. Why should any man starve with such a country as this open to him?" Maria Coffey, in answer to the question why she came, replied: "Because Ireland is becoming poorer every day, and to get a living in America." "Because there is no use of staying in a land where everybody suffers more or less from want," was the very good reason given for coming by another Irish girl. John O'Brien's reason for coming was "to live in a land where a man can be a man and not be oppressed," and a very good reason it is. Another young man said, "I've come to try to make a living such as I couldn't find in the old country, not even in England." One who gave his name as Mike Hurley, and who seems to be a true-hearted Irishman, declared he came "just to make a living and be a man." Good for Mike, and there's no doubt that he will make the one and be the other. So hundreds might be quoted and all would tell substantially the same story.

**That Tired Feeling**

Afflicts every one in the spring. The system having become accustomed to the bracing air of winter, is weakened by the warm days of the changing season, and readily yields to attacks of disease. Hood's Sarsaparilla is just the medicine needed. It tones and builds up every part of the body, and also expels all impurities from the blood. Try it this season.

FRIDAY, JUNE 10. 1887.

## LOCAL NEWS.

Remember the orphans to-morrow night.

Dr. Charles Stults has returned from Huntington to resume his practice in this city.

The ice men are busy delivering that cool, desirable article in different parts of the city.

The ladies interested in the Orphan's fair are beautifying and decorating the Library hall.

The commencement exercises of the Fort Wayne conservatory of music will be private this year.

The African M. E. church people are going to circulate a dollar subscription paper towards the erection of their new edifice.

The foundation for the new business building of Mason Long and Pixley & Co., on Berry street, is almost completed.

By request of leading citizens of Nebraska, Rev. S. A. Northrop will preach in Gage's block Sunday afternoon at 4 o'clock.

At last accounts only four jurors had been accepted in the Cora Lee case at Springfield, Mo., and one of them is a colored man.

Hon. and Mrs. T. P. Keator went to Warsaw last evening. Mr. Keator is to address the editorial convention.

The Plymouth *Democrat* says: "Mr. and Mrs. M. W. Simons, of Fort Wayne, visited their friends and attended commencement this week."

The rains of the last two days have left the streets in a bad condition, and the services of the street cleaning brigade will have to be called into use.

The Electric Light company are putting wires into the Library hall to-day. Three lights will be put in the hall and one over the steps in front of the building.

The work of laying the outside stone for the addition to the new government building has been commenced and that edifice is gradually approaching completion.

The exploding of dynamite cartridges in the St. Mary's river, to raise the body of little Charlie Weaver, killed thousands of fish and since Tuesday the stream has been white with them.

The Huntington *Herald* yesterday published three railroad items stolen boldly from the columns of THE SENTINEL without proper credit. It is usually these pirates who criticise other newspapers.

The graduating class of the high school give a banquet at the Morton club rooms after the commencement exercises to-night. A member of THE SENTINEL staff is honored with an invitation.

Since Col. I. B. McDonald's election as street commissioner of Columbia City he is likened to the great Horatio Seymour, who was wont to boast that he never sought but one political office: "That of road supervisor."

Knights of Labor generally have received a circular with printed copies of the revised constitution and by-laws of the order, upon which they are asked to vote. The vote must be taken to headquarters not later than June 25.

English sparrows are coming into vogue for trap shooting and are said to make more satisfactory targets than pigeons. The Fort Wayne gun club should try the sparrows, and if pleased with the result there need be no fears of the supply running out.

At the closing session of the Indiana Pharmaceutical convention Mr. Geo. H. Loesch, of this city, was chosen a member of the committee on pharmacy and queries, while Mr. A. J. Detzer was chosen one of the alternate delegates to the national convention of pharmacists.

A street fakir was out on Court street last night selling his wares and managed to rake in a good many half dollars. It is strange that people will persist in buying of these fellows when by patronizing our own merchants they can get better goods in almost any line, and as cheap, too.

Rt. Rev. Bishop Dwenger goes to Logansport to-morrow and Sunday he will administer the rite of confirmation in St. Vincent's, St. Joseph's and St. Bridget's churches. Monday the distinguished prelate officiates in Fulton and Harrison.

A committee of the Orland people will meet President Hughart, of the Grand Rapids and Indiana, at an early date, when the appropriations and subscriptions will be considered, and the question settled as to what shall be done in regard to the road, and how soon it shall be built.

The Warsaw M. E. district ministers are going to try to collect a penny a day for church missionary purposes. The "penny a day" idea was very popular. If every member of the M. E. church would give as much, it would amount to $7,000,000 instead of $1,000,000.

The gun club. of Peru, Logansport, Marion, Rochester, Wabash, North Manchester and Warsaw are taking steps to form a district association, and two tournaments will be held in each place. One variety of clay pigeon and one style of trap will be adopted, thus securing uniformity and placing the different clubs on an equal footing.

Yesterday morning, at 1:30 o'clock, at the home of her parents, at Columbia City, occurred the death of Miss Maggie Roe. She was a young lady of very excellent qualities and dearly beloved by all who knew her. She leaves a stricken father and mother and two brothers to mourn her loss. Miss Roe has many friends in the city who will be pained to hear of her death. Funeral from St. Paul's Catholic church at Columbia City, Saturday morning.

The H. S. club was highly entertained last evening by Miss Carrie Havens, 58 Maumee avenue.

The average school boy is happy because his school days are ended for the summer and he sees in the near future the advent of a circus and the coming of the Fourth of July.

Mr. W. W. Rockhill will go east Sunday night to brace himself up for the sea voyage. Wright has a legion of friends here who hope his health will be restored while abroad.

The Warsaw *Times* says: "Dr. Silas B. McManus, formerly of this place—for a long time connected with the Fort Wayne *Gazette*, and no residing at Lima, in Lagrange county—arrived in this place last evening, and is the guest of Q. A. Hossler, of this paper. He has greatly improved in health within the past year or two, and now looks quite rugged."

An inscription painted in large letters on a huge stone standing near the city hall, at the corner of Barr and Berry streets, reads: "Where will you spend Eternity?" It attracts the attention of a great many and starts a train of thought in the sinner's mind that is anything but pleasant. It perhaps accomplishes an object that a sermon could not do.

R. A. Marvin, a printer well known in Fort Wayne, and at one time the publisher of a paper at Lagro, is reported to have received a sentence of four years recently, in the Michigan penitentiary, on the charge of bigamy. The wife whom Marvin deserted was a former resident of Jackson township, near Aboite, by the name of Cheney. He has two children by the woman abandoned.

A telephone exchange girl at Indianapolis tells a *Journal* reporter that she is shocked at the way prominent church members and well-known moral models in the community talk over the wires. This suggests that perhaps its well enough for the 'phone-user to remember that he don't always know who he is talking to, and that any wire-slang he works off may be laid up against him by the exchange angels.

Said Adjutant General Koontz, yesterday: "You have no idea of the number of letters I receive from old soldiers favoring the building of a soldiers' home instead of a monument, if we can not have both. There are are hundreds of old soldiers in Indiana who have no means, and who are unable to work, who are either now in poor houses or will be compelled to go there, for there is no other place for them."

Wm. Fleming has quit claimed to J. H. Bass, lots 44, 45, 46 and 48, Bowersville; Frad Braun to John Schmidt, lot 5, Forbing's addition, for $500; John Kleine to H. F. Hilgerman, lot 1 and 2, Ewing's addition, for $3,600; Charlotte Mowrer to F. F. Duemling, lot 3, college addition; Charles McCulloch to Alice A. Robbe, lot 5 and 6, Beck's addition; Samuel Shryock to Rebecca Brown and Mary McLachlan, 6 lots, by will.

The Warsaw *Union* says: "While at Fort Wayne last week we accidentally met our friend Daniel B. Kebler, formerly of this place and well known by many of our citizens. For several years past Mr. Kehler has been connected with a manufacturing firm, which is now wholly engaged in manufacturing folding beds, and we are informed business is good. We took the time to visit the factory which is situated in the eastern part of the city where a number of mechanics were at work making th e goods. Mr. Kehler is an affable as well as accomodating gentleman and took considerable pains to show us around."

Prof. Keintz's band will make a tour of the city to-morrow afternoon to herald the opening of the Orphan's fair at Library hall. In the evening the Catholic Knights and the Catholic legion will make a street parade. On their return to the hall Mayor Muhler will formally open the fair, and it promises to eclipse anything of the kind ever attempted. The booths will be of novel and interesting construction. The congregations of St. Mary's and St. Paul's churches will have booths architecturally designed to imitate the new churches they are erecting and the Cathedral congregation will have two principal booths, one representing Library hall and the other the Catholic Orphan Asylum.

Next Wednesday and Thurday will be two great days for Fort Wayne. Bands and eminent musicians will be present from all over the country. On the evening of the 15th, a concert will be given at the Princess rink, at which Walter Rogers, the celebrated cornetist of Cappa's 7th regiment band, will be heard, as will also Otto Solden, the German violinist, Sam H. Burdette, the tuba soloist, and a selected band of about fifty or sixty men. On the 16th, the grand street parade by all the bands separately, and afterwards in a body, as one huge consolidated band, will be a sight never before seen in this country. After the parade a picnic will be given at the Apple Orchard, which will close the two days' entertainment.

**A Clear Complexion.**

How can you expect a clear complexion when the blood is full of impurities and the stomach clogged? The blood becomes impure because the liver does not act properly and work off the poison from the system, and the certain results are blotches, pimples and eruptions. Purify the blood with Simmons Liver Regulator, and regulate the liver stomach and bowels, and then skin will become clear.

FRUIT HOUSE.

THE French mode of killing poultry, causing instant death and perfect bleeding, is accomplished by opening the beak of the fowl, and with a sharp-pointed and narrow-bladed knife, making an incision at the back of the roof of the mouth, which will divide the vertebræ and cause immediate death, after which the fowls are hung up by the legs until bled. They are then picked when warm. In this way the skin presents a natural appearance.

FRUIT HOUSE.

One reason why cases terminate fatally that at first were not believed to be serious is because patients and physicians neglect disease in its first and faint attack. They wait until the enemy is well into the citadel, and then they find it very difficult to dislodge him. When a strong man—a man not prone to coddle himself and weakly yield to every little pain or ailment; a man of nerve and moral courage—takes to his bed and complains of being ill, it is almost certain that something serious is impending. It is the hight of folly for the friends of the patient to treat his illness as a matter of small importance; for they know not what may be developed if neglect is evinced. Nor should they be content with that very familiar and certainly most profound diagnosis from the medicine-man that the patient is "bilious," or "nervous," or a "little run dow"—diagnosis that hides a vast amount of professional ignorance or is advanced as an excuse for a vast amount of professional apathy or indolence. A man who has a family to support—a man of self-respect, energy, and generally good physical condition—does not yield to sickness until he feels that it is going to get the best of him; and then is the time for prompt, thorough, and competent medical skill and experience to be summoned to his aid.

**Card of Thanks.**

The relatives and friends of the late John Koester desire to return their sincere thanks to kind friends and neighbors who so kindly assisted them during his illness and death, and especially to his fellow workmen of the Kerr Murray works for their many kindnesses shown.

Peculiar in medicinal merit and wonderful cures—Hood's Sarsaparilla. Now si the time to take it, for now it will do the most good.

ADVICE TO MOTHERS.—MRS. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving he child from pain, and the little cherub wakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. Jan. 19-eodawlv.

The learned and eminent scholar, Andrew D. White, ex-president of Cornell University, Ithaca N. Y., writes under date Dec. 2, 1884: "Long experience has taught my family to prize Pond's Extract very highly, and to regard it as one of the absolute necessities of housekeeping." Such testimony should induce all families to at least try Pond's Extract; an invaluable remedy for all pains and hemorrhages.

Three Effects.—The thouands of remarkable cures which have been accomplished by Hood's Sarsaparilla are due simply to three effects which this great medicine has upon those who take it:

*First.* It purifies the blood.

*Second.* It strengthens the system.

*Third.* It gives healthy action to the digestive organs.

With these three effects no disease can long retain its hold. It is forced to leave the system, giving place to health and strength, through the potent influence of Hood's Sarsaparilla. Sold by all druggists. Try it.

**VITIATED BLOOD.**

**Scrofulous, Inherited and Contagious Humors Cured by Cuticura.**

THROUGH the medium of one of your books received through Mr. Frank T. Wray, Druggist, Apollo, Pa., I became acquainted with your Cuticura Remedies, and take this opportunity to testify to you that their use has permanently cured me of one of the worst cases of blood poisoning, in connection with erysipelas, that I have ever seen, and this after having been pronounced incurable by some of the best physicians in our county. I take great pleasure in forwarding to you this testimonial, unsolicited as it is by you, in order that others suffering from similar maladies may be encouraged to give your Cuticura Remedies a trial.

P. S. WHITLINGER, Leechburg, Pa.

**SCROFULOUS ULCERS.**

James R. Richardson, Custom House, New Orleans, on oath says: "In 1870 Scrofulous Ulcers broke out on my body until I was a mass of corruption. Everything known to the medical faculty was tried in vain. I became a mere wreck. At times could not lift my hands to my head, could not turn in bed; was in constant pain, and looked upon life as a curse. No relief or cure in ten years. In 1880 I heard of the Cuticura Remedies, used them, and was perfectly cured."

Sworn to before U. S Com. J. D. Crawford.

**ONE OF THE WORST CASES.**

We have been selling your Cuticura Remedies for years, and have the first complaint yet to receive from a purchaser. One of the worst cases of Scrofula I ever saw cured by the use of five bottles of Cuticura Resolvent, Cuticura, and Cuticura Soap. The Soap takes the "cake" here as a medicinal soap.

And contagious humors, with loss of hair, and eruptions of the skin, are positively cured by Cuticura and Cuticura Soap externally, and Cuticura Resolvent internally, when all other medicines fail. Send for pamphlet.

**Choking Catarrh**

Have you awakened from a disturbed sleep with all the horrible sensations of an assassin clutching your throat and pressing the life-breath from your frightened chest? Have you noticed the languor and debility that succeed the effort to clear your throat and head of this catarrhal matter? What a depressing influence it exerts upon the mind, clouding the memory and filling the head with pains and strange noises! How difficult it is to rid the nasal passages, throat and lungs of this poisonous mucus all can testify who are afflicted with catarrh. How difficult to protect the system against its further progress towards the lungs, liver and kidneys, all physicians will admit. It is a terrible disease, and cries out for relief and cure.

The remarkable curative powers, when all other remedies utterly fail, of Sanford's Radical Cure, are attested by thousands who gratefully recommend it to fellow-sufferers. No statement is made regarding it that cannot be substantiated by the most respectable and reliable references.

Each packet contains one bottle of the Radical Cure, one box of Catarrhal Solvent and an Improved inhaler, with treatise and directions, and sold by all druggists; for $1.00.

## PITTSBURG FLAMES.

A Fire in That City Causes a Loss of Over $70,000 and Impairs Business Materially.

PITTSBURG, Pa., June 10.—The fire in the mail office of the Western union, starting in crossed wires behind the switch board, burned out three upper stories of the building on Fifth avenue and Wood street, this morning, destroyed valuable machinery of the telegraph company and prostrated every wire. A temporary office has been taken at the Mutual Union office.

The Telephone company will not be in a condition to do business for at least ten days. The pool rooms and bucket shops were compelled to close up and comparatively little business was transacted to-day at the various exchanges. The direct loss of the Western Union company by the destruction of wires and machinery is not less than $35,000. To this must be added heavy consequential damages on account of the delay of general business. The direct loss of the telephone company, placed by good judges, is from $15,000 to $20,000. The consequential damages to this company is also thought to be heavy. The loss of the First National bank by damage to the building is about $15,000. The whole direct loss nicely approximates to $70,000, and the direct loss may greatly exceed that sum.

### NEW PENSION BILL.

The Grand Army Posts Asked to Urge The Next Congress to Pass It.

MADISON, Wis., June 10.—Adjutant General Gray, of the Grand Army, is busily engaged in recommending to all posts of the country the dependent pension bill whose passage is to be urged upon the next congress. It was drafted by the national pension committee of the G. A. R., composed of Geo. S. Merrill, Lawrence, Mass.; Louis Wagner, Philadelphia; James Tanner, Brooklyn, N. Y.; John C. Linehan, Penacook, N. H., and John S. Kountz, Toledo. Section 2 provides that all persons who served three months in the military or navalservice of the United States and have been honorably discharged and are suffering from mental or physical disability, not the result of their own vicious habits, shall be entitled to receive $12 per month. That persons who are now receiving pensions under the existing laws or whose claims are pending in the pension office may receive the benefits of this act. That no person shall receive more than one pension for the same period, and rank in service shall not be considered.

### FINDLAY'S FUN.

The Day is a Military One and the First Prize of $1,000 Will go to the Toledo Cadets—Chief Justice Waite Talks.

FINDLAY, Ohio, June 10.—This is a military day at the great natural gas celebration and the streets were filled with armed men. At 9:30 the new famous Toledo cadets reached here and were met at the depot by all the military companies and bands now in the city. The procession was formed and escorted the cadets to the chamber of commerce where a formal reception was tendered them. Immediately afterward the military companies were formed in procession and marched to Camp Garfield, where a drill for prizes aggregating $2,000 took place. The contestants were the Toledo Cadets, the Geneva Rifles, Ohio University Cadets, Wooster City Guards. The judges were Captain Hobart, of the Third United States Infantry, Columbus barracks; Captain Thompson, third United States infantry and Lieutenant Ogle, 17th United States infantry. It is generally conceded that the first prize of $1,000 will go to the Toledo Cadets. Chief Justice Waite, who spent last night in the city, said this morning that "it had been thirty years since he had been in Findlay, and that the change was the most amazing thing in his experience." He characterized Findlay's natural gas well as the eighth wonder. The program for to-night includes a grand march of the military and other bodies through the streets, natural gas illumination, fire works, and speeches at the Wigwam and a band contest for prizes aggregating $2,500. The weather is delightful and there is no abating in the crowds or enthusiasm.

### The Lecture of Judge McBride at the Fort Wayne College.

The lectured of Judge H. Wes. McBride, of Albion, last night, before the students of the Fort Wayne college, attracted to the college hall a large attendance of the students of the institution and a number of people from the city. The theme chosen by the judge for his lecture was "What a Young Man Can do for Himself," and his discourse throughout was replete with fine thought and good advice to the young men of his audience, who would soon be called upon to enter the arenas of busy life and do battle for themselves.

The judge is an interesting talker and his lecture last night was an able production of a brilliant and cultivated mind, drilled by meeting the obstacles and realities of a stern and busy life. His words fell with force on the minds of his hearers and they cannot help but be productive of great good. The lecture was listened to attentively by the students, and they were not only highly pleased but greatly profited by the evenings literary treat that the worthy and honorable gentlemen favored them with. They will not forget his earnest words and they would be glad to hear him again.

## HENRY GEORGE.

Gives His Opinion of the Union Square Incident of Saturday Night And Talks About Wm. O'Brien.

NEW YORK, June 10.—The entire first page of Henry George's paper, the *Standard*, is taken up with George's opinion of the Union Square incident of Saturday night last. It is headed "William O'Brien," and often asserts that men who side with John McMackin did right in not yielding to the demands of O'Brien. He says: "No traps whatever were set for O'Brien, and no attempt was made to get him to take sides in the American politics." He came to America to denounce an Irish landlord for his conduct as a landlord. He was received with open arms by American landlords and the defenders of American landlords, who dined him and wined him and gave him public ovations with the transparent purpose of making themselves solid with the Irish vote. He has been flattered and feasted by a press that has nothing but misrepresentation and abuse for those who impeach in America the very same system which these papers so gladly condemn in Ireland, and has received the public approval of the same archbishop who is exerting all his power to persecute anti-ecclesiastical death the American priest, who incurred the unrelenting enmity of the Italian propagate by the brave words he said in favor of "Irish revolution" in Ireland's darkest hour.

## DASTARDLY DEED!

The Murder of a Wealthy Georgia Planter by a Disappointed Lover.

BARNESVILLE, Ga., June 10.—The full details of the murder of Col. John C. Hancock, a leading citizen of Crawford county, show it to have been a premeditated affair. Colonel Hancock was a large planter, having for a neighbor the Rev. John A. Burnett. Mr. Burnett objected to Hancock's having impounded some of his stock, and was quarreling with him when Jerome Burnett, his seventeen year old son, stepped up. Leaving the two men to their disputation Jerome went half a mile to a house, procured a shot gun and returned. He sat on a stump almost thirty rods from the men, apparently oblivious to what was going on. As soon as Col. Hancock turned full toward him Jerome raised his gun and quickly fired, the load entering Col. Hancock's heart. Mr. Barnett caught the body of the falling man. A year before, when young Barnett was forbidden Hancock's house, where resided a young woman with whom he was enamored. He vowed vengeance and seized upon the first occasion to wreak it. Rev. Mr Burnett had suffered the loss of his father and wife by death in the two preceeding days.

### COLLECTOR HUNTER.

He Must Move to Indianapolis or Resign His Place.

The following special from Washington to the Cincinnati *Enquirer* will interest the internal revenue officers in this city:

"Collector Hunter, of the Lawrenceburg, Indiana, internal revenue district, has written a voluminous letter to the commissioner of internal revenue, filled with reasons why the principal office of the consolidated Lawrenceburg-Kokomo district should not be removed from Lawrenceburg to Indianapolis, in accordance with the executive order consolidating the two districts. The principal reason was because the greater portion of the revenue collected in the district is at Lawrenceburg and Aurora. This reason, however, does not seem to impress the officials here as a strong one, because, as they say, a deputy will be retained at Lawrenceburg and Aurora, and the tax-payer will not be put to any inconvenience in getting a supply of stamps. The officials seem to think that the proper place for the principal office of the collector is at Indianapolis, where there is a government building, and which is nearer the center of the district. It is probable that Collector Hunter will have to move up to Indianapolis or resign. The official suspect that the strongest reason he has for objecting to the change is one that he omitted to give in his letter, viz., because he resides at Lawrenceburg and doesn't want to be put to the inconvenience of going to Indianapolis to attend to the duties of his position as collector."

COL. I. B. McDONALD says "Whitley county is solid for Cleveland." That eases the suspense.

HERMAN, the magician, died Wednesday at Carlsbad, aged sixty-six years. He appeared in this city a few years ago.

IT is stated on high authority at Washington that there is no probability of an extra session of congress being called.

THE surplus revenue is piling up in the treasury vaults, because of the iniquitous tariff legacy bequeathed us by the republicans.

INDIANAPOLIS has a base ball club and is "kicking" itself very hard. The ball tossers have only won eight games out of thirty-eight; but then that is an Indianapolis average at everything.

SENATOR EDMUNDS, of Vermont, is devastating the trout brooks in Northern Michigan along the line of the Grand Rapids and Indiana. He travels in a special car attached to the regular train.

MR. PARNELL has so far recovered from his illness as to be able to take his place at the head of the nationalist party in commons. He has already mapped out a new plan of campaign for the Crimes bill battle.

IT is established beyond contradiction that the government is safe in the hands of the democratic party. This is a little severe on the republican political prophets, but they must bear their disappointments smilingly.

MR. J. J. LAAN, ex-editor of the Albion *Democrat*, has purchased a fruit farm in Virginia, twenty-five miles from Washington, and is following pursuits more peaceful than a twelfth district congressional campaign.

THE Norwegian Lutheran synod of North America, in session at Stoughton, Wis., has tackled the predestination question, with the usual result. The synod is now divided, and the prospects for healing the breach are not favorable.

CHAUNCEY M. DEPEW declares that he is not a presidential quantity, but that he can tell the issues of the next two presidential campaigns. He says the canvass of 1888 will be made on the tariff and that of 1892 on prohibition.

EVEN at staid old St. Louis they are enforcing the Sunday law. Fort Wayne is not in immediate danger of any such innovation as St. Louis and other cities are wrestling with, but if ever a moral spell comes on us, this inscription on a St. Louis show window will do:

Remember the Sabbath Day
And Lay in a Supply of
Sin Annihilator.
Four Religious Ecstacies Bottled
For Twenty-five Cents.

THE Orphans' fair, which is to open at Library hall to-morrow evening, deserves the support and patronage of every citizen regardless of creed or nationality. Its purpose is to assist in maintaining in this city a home for orphan children for all time to come. It is not a local institution, but one that opens its doors to all the little children of the Fort Wayne diocese, and the benefits to accrue from such a house are great and everlasting.

IT is fair to presume that the city council, at its meeting next Tuesday evening, will grant to the Messrs. Centlivre the right and privilege of extending their Spy Run avenue street car line onto Superior street. The property owners have signified their willingness and pleasure at the improvement, so that the council has no reason to delay action unless it desires to obstruct and prevent public improvements.

THE tariff tax being such an excellent thing, according to its advocates, France has recently increased its import tax on American wheat from fifteen to twenty-six cents a bushel. The exclusion of our pork from Germany and a twenty-six cent embargo on wheat enables our farmers to realize, if they will give the matter a few practical thoughts, just what protection means and how high taxation enriches the toiler and gives him a market for his produce abroad.

WOODSON S. MARSHALL, once a lawyer of much prominence at Warsaw, and Commodore Clemons, a lawyer of Pierceton, have been disbarred by Judge Woods, for having been parties to the forgery of notes on Kosciusko farmers, as THE SENTINEL explained a day or two ago and only recalled now to show that iniquity is rewarded. Marshall is sojourning at the Hot Springs, completely broken down, and Clemons is serving a term in the penitentiary at Michigan City. The former once upon a time had hopes of representing the Warsaw district in congress, while the latter actually sought a seat on the supreme bench in 1884.

MR. JOHN TYLER, son of President Tyler, has for the ninth time been elected Grand Worthy Patriarch of the Sons of Temperance of the State of Virginia.

ESQUIMAU JOE, who acted as guide and interpreter to so many Arctic expeditions, is supposed to have been drowned near Marble Island. Joe, his father-in-law, and his two brothers-in-law left Cape Jalebert late last autumn in a whale boat with deer meat to trade with some whalers anchored off Marble Island. No tidings have ever been received of the boat or her occupants, and hence it is concluded that all were lost in one of the Arctic hurricanes that sweep across the northern seas.

"COULD a man make a shirt for 6 cents?" asks Charles Dudley Warner. "No. What limit is there to a woman's ambition or performance! She drives a stage, plays a violin, sews, sings, dances, acts, paints cloth in oil and water colors, teaches, is a clerk, a type-writer, a typesetter, an editor, a marvelous producer of short stories (said by critics to be the most difficult art in the world), a telegrapher, and as a yeller through the telephone probably will never have an equal. Go where you will, there is woman, lovely or plain, ready to cure, to chide, to guide, to aid, to instruct, to amuse, to rule; to lead, and point the way for halting man. It is not so much now for the sake of women as for the sake of men that women need the ballot. Men have made a sad mess of governing the world; they have filled it with drinking-saloons and standing armies."

EVERY steamer from Europe that lands in this country brings a load of foreigners who have come to try their fortunes in the new world. This ceaseless change of locality is one of the characteristics of mankind. The Arabs are not the only nomadic people. Irishmen, Englishmen, Germans, Scandinavians, and to less extent men of other European nationalities, grown tired of the surroundings in which they have been reared, leave the old homes and seek new ones across the Atlantic. In this country, the Yankee keeps moving West, and the Western man goes further West, or starts back again eastward. Change, change, change, is the universal law of social life. There is always something pathetic in the tearing up of old associations and the severing of old ties, as the emigrant or the traveler sets out to find his fortune amid new scenes. A few days ago, says the Des Moines *Register*, a great Cunard steamer landed in Boston with 1,216 immigrants whom it had brought from Europe to find homes in the United States. Two-thirds of the number were from Great Britain, and the most of these from Ireland. A reporter from the Boston *Globe* interviewed many of them, and their statements of their reason for coming were often sad and always interesting, without exception. They were all hoping to do better here than they could at home, and in many instances they were lured on by the bright hopes which friends already here held up before them. Said Bernard Kelley, a bright young Irishman: "I left home rather than starve, and because this is the greatest of all countries. Why should any man starve with such a country as this open to him?" Maria Coffey, in answer to the question why she came, replied: "Because Ireland is becoming poorer every day, and to get a living in America." "Because there is no use of staying in a land where everybody suffers more or less from want," was the very good reason given for coming by another Irish girl. John O'Brien's reason for coming was "to live in a land where a man can be a man and not be oppressed," and a very good reason it is. Another young man said, "I've come to try to make a living such as I couldn't find in the old country, not even in England." One who gave his name as Mike Hurley, and who seems to be a true-hearted Irishman, declared he came "just to make a living and be a man." Good for Mike, and there's no doubt that he will make the one and be the other. So hundreds might be quoted and all would tell substantially the same story.

That Tired Feeling

Afflicts every one in the spring. The system having become accustomed to the bracing air of winter, is weakened by the warm days of the changing season, and readily yields to attacks of disease. Hood's Sarsaparilla is just the medicine needed. It tones and builds up every part of the body, and also expels all impurities from the blood. Try it this season.

The Plymouth *Democrat* says: "Mr. and Mrs. M. W. Simons, of Fort Wayne, visited their friends and attended commencement this week."

The Electric Light company are putting wires into the Library hall to-day. Three lights will be put in the hall and one over the steps in front of the building.

The work of laying the outside stone for the addition to the new government building has been commenced and that edifice is gradually approaching completion.

The exploding of dynamite cartridges in the St. Mary's river, to raise the body of little Charlie Weaver, killed thousands of fish and since Tuesday the stream has been white with them.

The Huntington *Herald* yesterday published three railroad items stolen boldly from the columns of THE SENTINEL without proper credit. It is usually these pirates who criticise other newspapers.

The graduating class of the high school give a banquet at the Morton club rooms after the commencement exercises to-night. A member of THE SENTINEL staff is honored with an invitation.

Since Col. I. B. McDonald's election as street commissioner of Columbia City he is likened to the great Horatio Seymour, who was wont to boast that he never sought but one political office "That of road supervisor."

Knights of Labor generally have received a circular with printed copies of the revised constitution and by-laws of the order, upon which they are asked to vote. The vote must be taken to head quarters not later than June 25.

English sparrows are coming into vogue for trap shooting and are said to make more satisfactory targets than pigeons. The Fort Wayne gun club should try the sparrows, and if pleased with the result there need be no fears of the supply running out.

A street fakir was out on Court street last night selling his wares and managed to rake in a good many half dollars. It is strange that people will persist in buying of these fellows when by patronizing our own merchants they can get better goods in almost any line, and as cheap, too.

The Warsaw M. E. district ministers are going to try to collect a penny a day for church missionary purposes. The "penny a day" idea was very popular. If every member of the M. E. church would give as much, it would amount to $7,000,000 instead of $1,000,000.

The gun club of Peru, Logansport, Marion, Rochester, Wabash, North Manchester and Warsaw are taking steps to form a district association, and two tournaments will be held in each place. Yesterday morning, at 1:30 o'clock, at the home of her parents, at Columbia City, occurred the death of Miss Maggie Roe. The Warsaw *Times* says: "Dr. Silas B. McManus, formerly of this place—for a long time connected with the Fort Wayne *Gazette*, and no residing at Lima, in Lagrange county—arrived in this place last evening, and is the guest of Q. A. Hossler, of this paper. He has greatly improved in health within the past year or two, and now looks quite rugged."

An inscription painted in large letters on a huge stone standing near the city hall, at the corner of Barr and Berry streets, reads: "Where will you spend Eternity?" It attracts the attention of a great many and starts a train of thought in the sinner's mind that is anything but pleasant. It perhaps accomplishes an object that a sermon could not do.

R. A. Marvin, a printer well known in Fort Wayne, and at one time the publisher of a paper at Lagro, is reported to have received a sentence of four years recently, in the Michigan penitentiary, on the charge of bigamy. A telephone exchange girl at Indianapolis tells a *Journal* reporter that she is shocked at the way prominent church members and well-known moral models in the community talk over the wires. Said Adjutant General Koontz, yesterday: "You have no idea of the number of letters I receive from old soldiers favoring the building of a soldiers' home instead of a monument, if we can not have both. For several years past Mr. Kebler has been connected with a manufacturing firm, which is now wholly engaged in manufacturing folding beds, and we are informed business is good. We took the time to visit the factory which is situated in the eastern part of the city where a number of mechanics were at work making the goods. Mr. Kebler is an affable as well as accommodating gentleman and took considerable pains to show us around."

Prof. Keintz's band will make a tour of the city to-morrow afternoon to herald the opening of the Orphan's fair at Library hall. In the evening the Catholic Knights and the Catholic legion will make a street parade. On their return to the hall Mayor Muhler will formally open the fair, and it promises to eclipse anything of the kind ever attempted. The booths will be of novel and interesting construction. The congregations of St. Mary's and St. Paul's churches will have booths architecturally designed to imitate the new churches they are erecting and the Cathedral congregation will have two principal booths, one representing Library hall and the other the Catholic Orphan Asylum.

Next Wednesday and Thursday will be two great days for Fort Wayne. Bands and eminent musicians will be present from all over the country. On the evening of the 15th, a concert will be given at the Princess rink, at which Walter Rogers, the celebrated cornetist of Cappa's 7th regiment band, will be heard, as will also Otto Holden, the German violinist, Sam H. Burdette, the tuba soloist, and a selected band of about fifty or sixty men. On the 16th, the grand street parade by all the bands separately, and afterwards in a body, as one huge consolidated band, will be a sight never before seen in this country. After the parade a picnic will be given at the Apple Orchard, which will close the two days' entertainment.

### A Clear Complexion.

How can you expect a clear complexion when the blood is full of impurities and the stomach clogged? The blood becomes impure because the liver does not act properly and work off the poison from the system, and the certain results are blotches, pimples and eruptions. Purify the blood with Simmons Liver Regulator, and regulate the liver stomach and bowels, and then skin will become clear.

THE French mode of killing poultry, causing instant death and perfect bleeding, is accomplished by opening the beak of the fowl and with a sharp pointed and narrow bladed knife, making an incision at the back of the roof of the mouth, which will divide the vertebræ and cause immediate death, after which the fowls are hung up by the legs until bled. They are then picked when warm. In this way the skin presents a natural appearance.

FAIRY HOUSE.

One reason why cases terminate fatally that at first were not believed to be serious is because patients and physicians neglect disease in its first and faint attack. They wait until the enemy is well into the citadel, and then they find it very difficult to dislodge him. When a strong man—a man not prone to coddle himself and weakly yield to every little pain or ailment; a man of nerve and moral courage—takes to his bed and complains of being ill, it is almost certain that something serious is impending. It is the hight of folly for the friends of the patient to treat his illness as a matter of small importance; for they know not what may be developed if neglect is evinced. Nor should they be content with that very familiar and certainly most profound diagnosis from the medicine-man that the patient is "bilious," or "nervous," or a "little run down"—diagnosis that hides a vast amount of professional ignorance or is advanced as an excuse for a vast amount of professional apathy or indolence. A man who has a family to support—a man of ... energy, and generally ... condition—does not yield ... till he feels that it ... and then ... prompt, thorough, ... skill and ... to his aid.

### Card of Thanks.

The relatives and friends of the late John Koester desire to return their sincere thanks to kind friends and neighbors who so kindly assisted them during his illness and death, and especially to his fellow workmen of the Kerr Murray works for their many kindnesses shown.

Peculiar in medicinal merit and wonderful cures—Hood's Sarsaparilla. Now is the time to take it, for now it will do the most good.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub wakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

The learned and eminent scholar, Andrew D. White, ex-president of Cornell University, Ithaca N. Y., writes under date Dec. 2, 1884: "Long experience has taught my family to prize Pond's Extract very highly, and to regard it as one of the absolute necessities of housekeeping." Such testimony should induce all families to at least try Pond's Extract; an invaluable remedy for all pains and hemorrhages.

Three Effects.—The thousands of remarkable cures which have been accomplished by Hood's Sarsaparilla are due simply to three effects which this great medicine has upon those who take it:
*First*, It purifies the blood.
*Second*, It strengthens the system.
*Third*, It gives healthy action to the digestive organs.
With these three effects no disease can long retain its hold. It is forced to leave the system, giving place to health and strength, through the potent influence of Hood's Sarsaparilla. Sold by all druggists. Try it.

VITIATED BLOOD.
Scrofulous, Inherited and Contagious Humors Cured by Cuticura.
THROUGH the medium of one of your books received through Mr. Frank T. Wray, Druggist, Apollo, Pa., I became acquainted with your Cuticura Remedies, and take this opportunity to testify to you that their use has permanently cured me of one of the worst cases of blood poisoning, in connection with erysipelas, that I have ever seen, and this after having been pronounced incurable by some of the best physicians in our county. I take great pleasure in forwarding to you this testimonial, unsolicited as it is by you, in order that others suffering from similar maladies may be encouraged to give your Cuticura Remedies a trial.
P. S. WHITLINGER, Leechburg, Pa.

SCROFULOUS ULCERS.
James E. Richardson, Custom House, New Orleans, on oath says: "In 1870 Scrofulous Ulcers broke out on my body until I was a mass of corruption. Everything known to the medical faculty was tried in vain. I became a mere wreck. At times could not lift my hands to my head, could not turn in bed; was in constant pain, and looked upon life as a curse. No relief or cure in ten years. In 1880 I heard of the Cuticura Remedies, used them, and was perfectly cured."
Sworn to before U. S. Com. J. D. Crawford.

ONE OF THE WORST CASES.
We have been selling your Cuticura Remedies for years, and have the first complaint yet to receive from a purchaser. One of the worst cases of Scrofula I ever saw cured by the use of five bottles of Cuticura Resolvent, Cuticura, and Cuticura Soap. The Soap takes the "cake" here as a medicinal soap.
TAYLOR & TAYLOR, Druggists, Frankfort, Kan.

SCROFULOUS INHERITED.
And contagious humors, with loss of hair, and eruptions of the skin, are positively cured by Cuticura and Cuticura Soap externally, and Cuticura Resolvent internally, when all other medicines fail. Send for pamphlet.

DRUGGISTS USE THEM.
We have obtained satisfactory results from the use of Cuticura Remedies in our own family, and recommend them beyond any blood. The demand for them grows as their merits become known.

Choking Catarrh
Have you awakened from a disturbed sleep with all the horrible sensations of an assassin clutching your throat and pressing the life-breath from your tightened chest? Have you noticed the languor and debility that succeed the effort to clear your throat and head of this catarrhal matter? What a depressing influence it exerts upon the mind, clouding the memory and filling the head with pains and strange noises! How difficult it is to rid the nasal passages, throat and lungs of this poisonous mucus all can testify who are afflicted with catarrh. How difficult to protect the system against its further progress towards the lungs, liver and kidneys, all physicians will admit. It is a terrible disease, and cries out for relief and cure.
The remarkable curative powers, when all other remedies utterly fail, of Sanford's Radical Cure, are attested by thousands who gratefully recommend it to fellow-sufferers. No statement is made regarding it that cannot be substantiated by the most respectable and reliable references.
Each packet contains one bottle of the Radical Cure, one box of Catarrhal Solvent and an Improved Inhaler, with treatise and directions, and sold by all druggists for $1.00.

Mrs. Celestin Biewend's select school and kindergarten closed for the summer session with appropriate exercises yesterday. To-day Mrs. Biewend very kindly tendered the pupils, numbering about fifty, an elegant reception in the school parlors, at the northwest corner of Barr and Berry streets. So perfect were the arrangements for a delightful entertainment for the little ones that not a moment lagged nor did an incident occur but to add zest to the occasion. A sumptuous repast was served and becomingly partaken of. It was truly gratifying to witness the courtesy and due consideration displayed between the little masters and misses at all times during the reception. The high standard of excellence attained by this school fully warrants the great regard in which it is held generally, and Mrs. Biewend and her worthy assistant, Miss Rose Lewin, are certainly to be congratulated.

THE use of a good soap is certainly calculated to preserve the skin in health, to maintain its complexion and tone, and to prevent its falling into wrinkles. IVORY SOAP is an article of the most careful manufacture, and the most agreeable and refreshing of balms for the skin.

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.
